The Moderator closed the meeting at 8:00 P.M. The meeting would be held at a later date when the new by-laws could be complied with.

SPECIAL TOWN MEETING
June 26, 1958

In accordance with the warrant of the Selectmen, the meeting was held at the Birchland Park School Gymnasium. The Moderator, Raymond L. Chisholm, called the meeting to order at 7:40 P.M. Prayer was given by Rev. Ralph C. Crandall, followed by the Oath of Allegiance.

A total of 404 names were checked on the voting list, and a quorum of more than the required 235 was maintained during the entire meeting.

The following Report to the Town by the Board of Selectmen was made:

The East Longmeadow Board of Selectmen is amazed and disappointed at the grade=crossing decision announced by the Hampden County Commissioners yesterday. The question which occurs and has most frequently been asked by the townspeople since the decision is "whom does this ruling by Messrs. Stapleton, Sullivan and Walsh seek to protect or safeguard"?

It certainly was not to protect the County, since there was no question of expenditure of County Funds.

It was not to protect the Town against itself, because a town meeting vote speaking for the 9,000 inhabitants of East Longmeadow has already approved the taking for the street in question, indicating a desire for the Town to go forward on its plans for making its industrial land attractive and broadening the tax base.

It could not be to protect the abutters; because contrary to Commissioner' Sullivan's reported statement, there were no numerous objections at either meeting. The principal objector was a nearby landowner, who apparently would like a street to pass through his property.

It was not to protect or benefit the railroad, operating as it does in a day only two trains over this line. It might anticipate greatly increased freight-car volume as a business comes to the area. As a matter of fact, the railroad entered only a mild objection at the final meeting, and that related to the cost of a warning-signal system that would have to be installed.

It appears then that the decision will only benefit those who desire East Longmeadow not to grow industrially, including the adjoining community of Longmeadow which has already voiced its objection and the City of Springfield, whose officials from time to time have suggested that this very attractive industrial area in East Longmeadow might attract some already established industry.

This decision violates the very essence of the "home rule" theory and indicates again that the obsolete county government structure is no longer necessary.

Earlier in the history of this Petition, people of East Longmeadow were practically assured by the Commissioners that it was a mere matter of form, and the words "public convenience and necessity" played no part in the two hearings. As a matter of fact, the Selectmen were informed, as was Counsel for Mr. Dietrich, that a decree was drawn some weeks ago for the County Commissioners' signatures approving this grade crossing. We naturally inquire then what happened to change the picture.

The town meeting vote already established that a new road was a public necessity for East Longmeadow. The County Commissioners are not in a position and have not the knowledge to decide that the Town must not have that road. The petition simply sought as required by law their approval for connecting the two segments of that road by a grade crossing which would replace an existing private crossing that will be abandoned. When Commissioners Stapleton, Walsh and Sullivan recently suggested that their approval would be granted if the Town could show some industry or business already committed to locating in the tract, the Selectmen rejected that as a condition, believing that the orderly procedure was to establish an approved roadway first.

The decision will not be accepted as final, and the Board of County Commissioners will be urged to reconsider it in the light of the benefits to East Longmeadow rather than in their own narrow interpretation of the words "public necessity". Then, if necessary, the Courts will be asked to review this decision by a Writ of Certiorari or other process to determine if the decision should not have been otherwise.

(Town vote referred to above made under Art. 30, Annual Town Meeting Feb. 20, 1958.)

East Longmeadow, Mass.

Gentlemen:

It is with great regret that I must resign from the Board of Library Trustees. I have recently accepted another position in the Boston area and will be relocating in that vicinity shortly.

I have enjoyed working with the Board of Library Trustees and the library staff. Although my term on the Board has been short, I like to feel that I contributed in a small way toward the operation of the town.

Very truly yours,

Board of Registrars

February 20, 1960

To the Citizens of East Longmeadow:

As requested in a petition signed by 35 voters of East Longmeadow, a recount was made of the votes cast on February 9th, at the Town Election, for the office of Selectman and Member of the Board of Public Welfare, involving candidates Arthur W. Anderson and Gerard L. Pellegrini.

The petitioners of the recount believed an error existed in the transcription of the final votes from the machines to the tally sheets.

The recount was held this date in accordance with General Laws. The 12 voting machines in the three precincts were opened and examined. New totals were taken and the old ones checked. At the completion of the voting machine examination, we examined the absentee ballots cast.

In every instance we encountered the exact same totals as previously recorded. The record remains the same in every instance.

As a result of this recount, it is the determination of the Board of Registrars that there exists no error in the transcription of the votes on the machines as transferred to the tally sheets.

The Board of Registrars would like to take this opportunity to commend the Wardens of the three precincts and their election officers for their duty at the polls, and their original return of votes cast that a recount could not change.

Respectfully,

Emilio J. Zucco

Board of Selectmen
and
Residents of East Longmeadow

I regret to inform you that due to my contemplated moving from the town of East Longmeadow I must resign from the Board of Selectmen as of Tuesday April 5, 1960. After being residents of East Longmeadow for twenty two years it is not easy for Mrs. Cronk and me to decide to leave such a fine community. It has been interesting to experience the growth of the town from a population of 3,375 in 1938 to its present figure of 10,250. I have enjoyed all my civic interests in the community beginning with my election to the Planning Board in 1940 up to my present third term as a member of the Board of Selectmen. I will always remember my pleasant associations with the residents and town officials of East Longmeadow.

I am greatly concerned with the inconvenience this resignation will cause the town at this time. However, the timing of the purchase and remodeling of our home in Hampden could not be changed. After careful consideration I believe that my resignation at this time will be for the best interests of the citizens and will cause the least amount of inconvenience to the town of East Longmeadow.

May I at this time express my appreciation to my fellow selectmen for the associations we have enjoyed as we worked together for the benefit of East Longmeadow.

Sincerely yours,

Sherwood W. Cronk

DEDICATION OF THE EAST LONGMEADOW HIGH SCHOOL

Saturday - October 22, 1960

Speech made by former Superintendent Frederic A. Wheeler, age 92, after High School Auditorium was formally dedicated to him.

When I came to East Longmeadow in 1919 to serve as your superintendent of schools the town had five schoolhouses in use, the Center School, the Pleasant View School, and three outlying one teacher buildings. During my term of service the three one teacher school buildings were closed, leaving only two buildings in use when I retired.

There were 15 classrooms in these five buildings. That was it. No auditoriums. No gymnasiums. No cafeterias. No ball fields. No parking areas. Closing the outside schools brought the number of Classrooms down to 12, but an addition of four rooms to the Pleasant View School brought it back up again to 16. That was my record. One classroom gained, but three schoolhouses lost. Speaking in terms of number of schoolhouses in use it was not until the present year that the town won back the ground that was lost between 1919 and 1937.

In 1919 the teaching staff was made up of 15 classroom teachers and two part time supervisors. Today the schools have many more than 15 teachers, most of them added to the staff since my retirement. I have not seen any of the new comers at work, but I am sure they are good teachers. But the teachers I found in your schools when I came here were just as good as they are.

In 1919 there were approximately 500 boys and girls in the schools of the town. Today there are over 2,000. But those five hundred were good boys and girls, just as good as any you have in the schools today. I know, for I became acquainted with most of them. The little girls were just as sweet and lovely as are the little girls of today. The boys were just as eager and just as full of kinks as the boys of today are.

During the years that I worked in your schools money for the improvement of the buildings was hard to get. Some of you may remember the almost unmentionable outhouses at the Center School, to which the children had to go in whatever weather the seasons brought. The attempt to do away with them was under agitstion for six years before the school committee was given the $22,000 needed for the job. When that happened, I felt somewhat as I think Eisenhower may have felt after the Battle of the Bulge was won.

Take another illustration. The Pleasant View School was seriously crowded. The school committee tried through several town meetings to get an appropriation of money to enlarge the building by four rooms. What finally helped it to do so was an amendment to the Constitution of the United States. The Nineteenth Amendment e enfranchised women. With that the room in the town hall which had been used for town meetings would no longer hold the voters. What to do? The selectmen met the situation by renting a circus tent, putting it up on the playground, and holding a town meeting in it. But the town meeting was held in the evening, the night was chilly, there was no heat in the tent, some of the ladies got cold feet and went home. The circus tent was not a success. Now, I didn't say there wasn't any heat in Town Meetings!

For some years the town mulled over the problem of a hall in which to hold town meetings. Finally, the idea was born that the two project might be united, that four classrooms might be united, that four classrooms might be added to Pleasant View so as to make a U-shaped building out of it, that the ends of the U might be joined by a wall, and that the space thus enclosed might then be roofed in. In this way the school board would get its needed classrooms and the voters a hall in which to meet. The plan proved acceptable, and approppriation of $38,000 was made for the four classrooms and another appropriation of $12,000 for the hall.

Times have changed. Of course there is a lot more money around than there used to be. But that is not all there is to it. In my

opinion interest in the problems of the public schools is more general and possibly more intelligent than it used to be. How else can one explain what this town has done during the past few years? Birchland Park. Mapleshade. This wonderful new High School. Mountain View now being built. Millions of dollars for school buildings. The town now has school houses that compare faverably with any to be found anywhere. These buildings are an achievement of which the school department and every citizen of the town can justly be proud. I am pleased, I am very much pleased that my name has been given to this beautiful auditorium, and I thank the Building Committee, the School Committee, and all interested in having this done.

I like the town of East Longmeadow. It has been my home for over forty years. The people here have been kind to me. I hope I can keep my home here as long as I live. And I hope that through the never ending success of years that are ahead only good things will come to the folks who make their homes in the town of East Longmeadow. In the words of the Psalmist of old, "Peace be within thy walls, and prosperity within thy palaces."

HALF THE VOTERS HAD CAST THEIR BALLOTS BY 12:00 NOON, IN ALL PRECINCTS. AT 7:30 P.M. THE POLLS WERE ALMOST DESERTED AND AT 8:00 P.M. THE POLLS CLOSED PROMPTLY, WITH NO ONE WAITING TO VOTE.

GREAT EMPHASIS WAS PLACED ON EARLY POLLING. VOTING MACHINES ALMOST REQUIRE THAT POLLING HOURS ARE LONGER SO THE VOTING LOAD IS EVENLY DISTRIBUTED THROUGHOUT THE DAY. THE OLD PRACTICE OF VOTING AFTER WORK AND JAMMING THE POLLS MUST BE A THING OF THE PAST.

175 ABSENTEE BALLOTS IN THE 3 PRECINCTS CAUSED AN HOUR DELAY IN THE FINAL COUNT.

IN 1964 THE VOTING LISTS SHOULD BE COUNTED, I.E. PRECINCT 1 VOTING LIST SHOULD BE COUNTED SO THAT THE EXACT NUMBER OF ELIGIBLE VOTERS ON THE LIST IS KNOWN. WHEN THE POLLING IS COMPLETE, MERELY COUNT THE PERSONS WHO DID NOT VOTE, AND SUBTRACT FROM THE NUMBER ELIGIBLE. THIS WILL SAVE ALMOST AN HOUR IN COUNTING.

IN 1960 ONE WAY TRAFFIC WAS INSTITUTED AT THE BIRCHLAND SCHOOL. ALL DAY THE TRAFFIC WAS ROUTED IN HANWARD AND OUT ELMCREST. LARGE ARROW SIGNS "VOTE HERE" and "EXIT ELMCREST" WOULD HAVE BEEN HELPFUL. POLICEMEN WERE ON DUTY IN THE BIRCHLAND YARD FROM 3:00 P.M. ON. A POLICE OFFICER WAS ON DUTY AT THE PLEASANT VIEW YARD FROM 12:00 NOON.

IN 1964 POLICE OFFICERS SHOULD BE ON DUTY IN THE PARKING YARDS AT THE POLLS FROM THE OPENING OF THE POLLS TO THE CLOSE, UNLESS FUTURE POLLING PLACES PROVIDE SUFFICIENT PARKING AND CONVENIENT ACCESS. A FUTURE POLLING PLACE AT THE HIGH SCHOOL IS A MUST. IDEAL SETUP FOR VOTING.

Comments on Primary:
Approx. 200 lined up inside building after polls closed, waiting to vote. Took until 9:15 to clear polls. State Primary interest difficult to anticipate. Voting held in Birchland Activities Room; 6 machines with all voting as one precinct. Too crowded with only one good doorway for voters coming and going. Recommend future precincts use Auditorium and half of gym. No more grouping of State Primaries.

NOVEMBER 27, 1962
STATE ELECTION RECOUNT

In accordance with a petition for recount filed in the Office of the Secretary of State, Boston, Mass., in the interest of John A. Volpe, candidate for Governor, copy of which petition was dated November 21, 1962 and received in East Longmeadow on Friday, Nov. 23, 1962; all candidates were immediately notified to meet in East Longmeadow on Tuesday evening, November 27th to recount the ballots cast.

The Recount began at the Birchland Park School at 7:00 P.M. The Board of Registrars, Town Clerk and two workers, Annette Peterson and Sheila Donovan carried out the recount. Police officer, Alfred Desmond was in charge of the sealed boxes at all times. Atty. Charles McGlue acted as counsel for Peabody and Atty. Richard Gelinas, counsel for Volpe. A variety of watchers, duly appointed, acted for both Republicans and Democrats, but at no time were there more than two Republican watchers or two Democratic watchers in the recounting area as only two workers were employed to do the actual counting.

All absentee ballots, applications, and ballot envelopes were inspected at the Birchland Park School. The Machines for Precincts 1 and 4 were then recounted. At 9:15 P.M. the party moved to the Pleasant View School and then to the High School, recounting all machines therein. The recount was completed at 10:15 P.M.

DETERMINATION OF THE REGISTRARS
AS A RESULT OF THE RECOUNT

THIS IS TO CERTIFY that the State Election Recount having been completed on this date, in accordance with statute, has revealed no change in the original count.

In addition to the satisfaction expressed by members of the Recounting Party in finding such a thoroughly correct and exacting tally, the Registrars would like to compliment the entire group of Election Officers in all four precincts for a commendable job done at the State Election on November 6th.

The Recounting Party were exacting and thorough, and overlooked nothing in their effort to find errors in the tabulation and records.

We are pleased that the count was not changed.

ANNUAL TOWN MEETING

Adjourned Session, March 7, 1966, High School

The meeting was called to order at 7:25 P.M. by the Moderator, Robert E. Kubicek, a quorum of more than the required 284 present.

The Moderator recognized Frederick W. Joslin, Chairman of the Board of Selectmen, who asked the consent of the meeting to make another motion, under Article 8, under the wording "or take any other action in relation thereto".

I understand that, although legally the Town Meeting does not actually have to vote upon it, the Board of Selectmen would like the approval of the meeting for their appointment of a Carlisle Building Committee, which they, in their capacity as contracting officials of the Town, could authorize to obtain final plans and contract bids for the work to be done, and, if the Selectmen choose, to authorize such Committee to actually act for the Town in signing the contract.

The meeting signified their consent.

I move, under Article 8, that the Board of Selectmen be authorized to appoint a Committee to secure final plans and specifications for the remodeling of the Carlisle Building and Town Hall and Library Wing and the construction of additions to the Carlisle Building, as already voted under this Article, and, at the election of the Selectmen, to authorize said Committee to receive bids; contract for such remodeling and construction; and for the expenditure of the sum already appropriated under this Article.

Sales upon which the retail sales tax described above has been imposed, or which are exempt from the retail sales tax, shall be exempt from the use tax. Sales upon which a tax has been paid in another jurisdiction shall also be exempt. Assessment, abatement and collection of the use tax shall be governed by the provisions which relate to the tax upon retail sales. The tax upon retail sales and the excise upon storage, use or other consumption shall be effective during the period from April 1, 1966 to December 31, 1967.

Each qualified taxpayer shall be entitled to a credit of four dollars for himself, four dollars for his spouse and eight dollars for each qualified dependent, but such credit shall not be allowed if the taxable income of such individual and his spouse exceeds five thousand dollars for the year. In addition to the taxes described above, the Act provides for new excises upon certain banks; new taxes upon the income of certain corporations; new taxes upon cigarettes; a room occupancy excise upon rent paid for the use of hotel rooms and other lodging places; and excises upon sales of certain alcoholic beverages.

The Act creates the Local Aid Fund for the purpose of providing educational assistance, and authorizes the periodic distribution of amounts from such Fund to the cities and towns. In addition, the Act contains a variety of provisions relating to the program of State aid to public schools, and to its administration.

VOTED UNANIMOUSLY

The Report of the 1966 School Building Committee was made prior to the vote on Article 4.

REPORT OF 1966 SCHOOL BUILDING COMMITTEE

The 1966 School Building Committee was appointed by the Town Moderator, the Chairman of the Selectmen and the Chairman of the School Committee, in accordance with the vote of the Annual Town Meeting to study the building needs of our growing school population and to recommend a course of action to meet these needs. The Committee consists of the following nine members:

Dr. James P. Brown	Dr. John J. Medrek
Mr. Kenneth D. Goddard	Mr. Lewis C. Packer
Mrs. Barbara Heenan	Mrs. Esther Rosati
Mr. Ralph B. Herrick, Jr.	Mr. Fernand C. Vadnais
Mr. Ray S. Jones	Mr. Robert J. Jarvis, ex-officio

In addition, Mr. Edward H. Sheldon, Assistant Superintendent of Schools, has met regularly with the Committee to assist in the work.

The first meeting was held on April 6 and meetings have been on a weekly basis since that time. Mr. Towle, on behalf of the appointing Committee, welcomed the members and outlined the basic issues which would have to be faced. He stated that although the article voted allowed them to make a total survey of the School system, the School Committee felt the problem to be basically one of elementary classrooms. In addition to the elementary rooms needed due to normal growth, it was pointed out that two other issues should probably be considered:

1. There is some indication that kindergarten may be required. If so, it is established that six rooms would be needed for this purpose, as meeting on half-day sessions this would provide for twelve sections of kindergarten, one-half day sessions being common for kindergarten.

2. The Willis Commission recommends early abolishment of schools built prior to 1900 and eventual abolishment of schools built prior to 1920. As Center School comes under the first category, replacement would necessitate an additional eight rooms.

Superintendent Jarvis acted as temporary chairman for the first few meetings in order that members might become acquainted and accustomed to working together. Organization took place on May 12 with Ray S. Jones, Chairman; Kenneth L. Goddard, Vice-Chairman and Robert J. Jarvis, Secretary.

Our goals were laid out as follows:

1. Determine School Need.

Each step in the development of a building program requires approval of the School Building Assistance Commission. The first step, a Building Needs Conference, took place on June 7. Prior to this meeting, information resulting from detailed studies of pupil enrollment, census figures, new building in town, available elementary classrooms and projected future needs had beenforwarded to the Commission. Consideration had been given to providing these by building additions to present schools, but due to the large number of rooms needed, it was decided to recommend a new school. Simeon J. Domas, Administrator concurred with the need for additional elementary classrooms, indicated approval of recommending a 24 classroom school and verified the fact that building costs were rising rapidly. He stated that the new rate of reimbursement for East Longmeadow is 45.12% and was of the opinion that any future refiguring would tend to decrease the percentage. In view of the above facts, Domas advised that it would be in the best interest of the Town to take prompt action.

2. Determine Location or Site.

The town-owned Blackman site and several prospective new sites in the northeast section of town were visited and owners interviewed. The Committee recommends that the Blackman site be reserved until a decision is made on replacement of Pleasant View School. The site chosen is relatively level, open land and therefore economical to develop. There is access from both Parker Street and Porter Road. Utilities are available. The owner is willing to sell at an agreed price which is substantially lower than that asked for other nearby property. A letter of approval has been received from the School Building Assistance Commission for this site.

3. Recommend Action to be Taken.

It was agreed that a desirable time schedule to meet our needs would be: (1) a decision on a course of action by this fall and permission at a Special Town Meeting to hire an architect to secure preliminary plans; (2) preliminary plans presented at the Annual Town Meeting in March with the estimated cost and approval sought to make the money available to proceed with obtaining final plans, bids, and construction of the school; (3) completion of final plans and securing of bids so that construction could start in the summer of 1967; (4) opening of school, September 1968.

The 1966 School Building Committee respectfully submits the above report and strongly urges your careful consideration and favorable action on Articles 4 and 5 of the warrant.

ARTICLE 4

PARKER AND PORTER

Voted that the Town authorize the Selectmen to take under Chapter 79 of the General Laws, on behalf of the Town for school purposes, in fee simple, substantially the following parcel of land:

A tract of land in the rear of the southeast corner of Parker Street and Porter Road, composed of approximately 22 acres, having as its northerly and westerly line, the rear lines of lots shown on a plan recorded in Hampden County Registry of Deeds, Book 43, Page 81, as its easterly line, the land now or formerly of Wiejek, and as its southerly line, the Northerly line extended easterly to said Wiejek's land, of the stub street shown on said plan between Lots #14 and #15, the course of which line being South 79° 43' 20" Easterly; together with the right of way in the other stub street shown on said plan off Porter Road and an easement for public travel over the first-mentioned stub street and land representing its extension easterly for a total of 300 feet from the easterly line of Parker Street; and an easement for sanitary sewer and drainage through land southerly of said parcel, to a brook

and transfer from Surplus Revenue the sum of $27,500.00 for the payment of damages and other costs related to such takings.

AND TO VOTE "YES" OR "NO" ON THE FOLLOWING QUESTIONS:

QUESTION NO. 1 - Proposed Amendment to the Constitution. Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General COURT in a joint session of the two branches held June 16, 1965, received 210 votes in the affirmative and 26 in the negative, and in a joint session of the two branches held May 10, 1967, received 220 votes in the affirmative and 9 in the negative?

SUMMARY

The proposed amendment to the Constitution increases from five days to ten days the period of time the Constitution gives the Governor to act upon measures passed by the Legislature and submitted to him for approval. No other changes are made in the several Constitutional provisions relative to action by the Governor upon such measures.

QUESTION NO. 2 - Proposed Amendment to the Constitution. Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held August 30, 1966, received 188 votes in the affirmative and 46 in the negative, and in a joint session of the two branches held May 10, 1967, received 174 votes in the affirmative and 78 in the negative?

SUMMARY

The proposed amendment of the Constitution authorizes the Legislature to impose an income tax graduated according to total income, and authorizes the granting of reasonable exemptions, deductions and abatements, as an alternative to the exercise of the Legislature's existing power to tax income under Article 44 of the Amendments to the Constitution. Without limiting the foregoing authorization, the proposed amendment permits any such tax to be imposed at a uniform percentage of an individual's federal income tax liability or at graduated rates applied to his total income taxable federally, and it permits reasonable variations of any federal provision. It requires that the graduated rates, exemptions, and deductions be set without regard to the kind of income being taxed.

QUESTION NO. 3

PROPOSED AMENDMENT TO THE CONSTITUTION

Do you approve of the adoption of an amendment to the constitution summarized below, which was approved by the General Court in a joint session of the two branches held July 20, 1966, received 225 votes in the affirmative and 1 in the negative, and in a joint session of the two branches held June 15, 1967, received 210 votes in the affirmative and 2 in the negative?

YES	
NO	

SUMMARY

The proposed amendment of the Constitution defines the circumstances in which a Governor's inability to perform his functions shall cause his office to become vacant, and it establishes a procedure for making the necessary determinations. The office will become vacant following a declaration of disability by the Governor himself or by the Chief Justice and a majority of the Associate Justices of the Supreme Judicial Court, or such other body as the Legislature may provide. The vacancy will terminate four days after the Governor declares that no disability exists, unless (1) within that period the Chief Justice and majority of the Associate Justices, or such other body provided by the Legislature, should make a contrary declaration and (2) within another stated period the Legislature, by two-thirds of each branch present and voting, then determines the issue contrary to the Governor's declaration.

The same procedure will also apply to a Lieutenant Governor who in the case of a vacancy is performing the Governor's duties.

The proposed amendment also requires the election of a Governor for the unexpired balance of the four-year term if a vacancy in the office of Governor as described in the proposed amendment continues for a six-month period expiring more than five months prior to a biennial state election other than an election for Governor.

QUESTION NO. 4

LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, upon which the House of Representatives did not vote and upon which the Senate did not vote?

YES	
NO	

SUMMARY

The proposed law provides that the official ballot in the biennial State election for the year 1970 shall contain a question asking the voters whether there shall be a convention in 1971 to (1) revise, alter or amend the constitution of the Commonwealth on the following subjects, insofar as they relate to the structure of government, and no others: the Executive Branch; the General Court; the Executive Council; the government of cities, towns and counties and their relationship to each other and to the government of the Commonwealth; (2) simplify and rearrange the constitution, and (3) provide methods of amendment thereof. The question will state that the convention shall not consider or propose any measure which relates to the Massachusetts Declaration of Rights, the provisions of the Massachusetts constitution concerning the "Judiciary Power" (other than provisions respecting the Executive Council), or any of the excluded matters enumerated in Article XLVIII, II, Section 2 of the Massachusetts constitution. The question will fix the number of delegates to the convention at 150, of whom 20 members shall be members of the General Court; the remaining 130 members shall be elected by the voters in the manner summarized below. The question will also state that the convention shall conclude its business not later than 120 days from its first session.

The proposed law provides that if a majority of the votes on the foregoing question is in the affirmative, the convention shall be held in July, 1971 to revise, alter or amend the constitution on the matters enumerated above only. The House of Representatives and the Senate shall each elect as delegates 10 of its members, not more than 6 from each branch coming from the same political party. Of the remaining 130 delegates, 10 shall be elected at large and 120 shall be elected from the 40 senatorial districts, 3 from each. Provision is made for the manner of nominating and electing these 130 delegates, without party or political designation, for filling vacancies occurring in the position of any delegate, from whatever source chosen, and for the conduct of the convention's business.

Any revisions, alterations and amendments of the Massachusetts constitution adopted by the convention shall be submitted to the people at the State election in 1972 for their ratification and adoption in such manner as the convention may direct. If a majority of the people voting thereon ratify and adopt such revision, alteration or amendment, the constitution shall be deemed to be changed accordingly.

The proposed law also provides that if the vote on the question to be submitted at the biennial State election in 1970 is in the affirmative, the Governor shall appoint a preparatory commission of 5 members to compile data to aid the convention in the discharge of its duties. Each member of the commission shall receive compensation of $10,000 and the commission may expend a sum not in excess of $200,000, as the Governor may approve, for its expenses.

BOARD OF SELECTMEN

TOWN OF EAST LONGMEADOW
ANNUAL TOWN MEETING
MARCH 7, 1970

In accordance with the Warrant of the Selectmen, the Annual Town Meeting was held in the High School Auditorium. The Moderator, Robert E. Kubicek, called the meeting to order at 10:20 A.M. a quorum of more than the required 300 voters being present.

The meeting was opened with prayer given by Reverend Robert J. Coonan, Assistant Pastor of St. Michael's Church of East Longmeadow. The prayer was followed by the Oath of Allegiance led by Scout Michael Franceschelli of Troop #169.

The Moderator acknowledged the service to the Town given by the late Superintendent of Schools, Robert J. Jarvis, with the following remarks:

"On the first day of this week our Town suffered a very deeply felt loss with the sudden passing of our School Superintendent, Robert J. Jarvis.

Bob Jarvis not only lived in East Longmeadow but he was a man who loved our community and possessed the abilities as an educational administrator to achieve high standards of recognition for our school system and curriculum.

He was selected from among many and invited by our then existing School Committee upon the strength of these credentials to come to East Longmeadow as Superintendent of our schools in 1953. In the ensuing 16 years, under Bob's able direction, there was constructed three new elementary schools, this senior high school and an educational system which has achieved national recognition. East Longmeadow will be a better community because of him, long after his untimely death.

Will you join me in a moment of silent contemplation to the memory of Bob Jarvis - and of this heritage he has left with us."

The voters remained standing and joined the Moderator in silent memory of Robert J. Jarvis.

Richard E. Hickey, Chairman of the Board of Selectmen, made the following resolution to the voters present:

"Mr. Moderator:

I should like to propose a Resolution directing the Town Clerk to include in the minutes of this meeting, the grateful appreciation of this community to the late Robert J. Jarvis, who, as Superintendent of our school system for 18 years, contributed so much to the educational well-being of our children and the general enhancement of our total community.

In addition, I further resolve that the Moderator, Chairman of the School Committee and the Chairman of the Board of Selectmen be authorized to appoint a committee consisting of five (5) people to propose at the next Annual Town Meeting for consideration by the voters, a suitable memorial to commemorate the memory of Robert J. Jarvis."

The resolution was seconded and then unanimously approved by the voters in attendance.

SUMMARY

The proposed amendment to the Constitution amends the existing constitutional provisions which direct the division of the Commonwealth into 240 representative districts and 40 senatorial districts. It provides for a census of the inhabitants of each city and town in the Commonwealth in the year 1971 and in every tenth year thereafter. The census in 1971 is to be the basis for determining the representative and senatorial districts for the ten-year period beginning January 1, 1975. Each subsequent census shall be the basis for determining the districts for each ten-year period beginning the fourth January following each census, so that the census in 1981 will determine the districts as of January, 1985, etc.

The amendment provides that the house of representatives shall consist of two hundred and forty members and the senate of forty members. In its first regular session following each census, the Legislature shall divide the Commonwealth into two hundred and forty representative districts of contiguous territory and forty senatorial districts also of contiguous territory. Each representative district shall contain, as nearly as may be, an equal number of inhabitants according to the census. Each senatorial district shall also contain as nearly as may be an equal number of inhabitants according to the census. A representative district shall not unite two or more counties, towns, or cities, or parts thereof, or a city and a town, or parts thereof, in one district unless the same is unavoidable. Further, no town of less than six thousand inhabitants shall be divided in forming representative districts. It is also provided that the County of Dukes County and Nantucket County shall each be a representative district, notwithstanding the foregoing. The senatorial districts, each of which shall elect one Senator, shall be formed without uniting two counties or parts of two or more counties, unless the same is unavoidable.

Each representative shall be an inhabitant of the district for which he is chosen at least one year immediately preceding his election, and each senator shall be an inhabitant of the district for which he is chosen at the time of his election and shall have been an inhabitant of the Commonwealth for at least five years immediately preceding his election. Any representative or senator who ceases to be an inhabitant of the Commonwealth shall cease to represent his district.

The amendment also provides that the Legislature (1) may by law limit the time within which judicial proceedings may be instituted calling in question any such division and (2) shall prescribe by law the manner of calling and conducting elections for the choice of representatives and of ascertaining their election.

Finally, the amendment annuls the existing constitutional provisions with respect to apportionment of representative and senatorial districts, although those provisions will remain in effect until January 1, 1975.

CHAPTER 351
ACTS OF 1970
COMMONWEALTH OF MASSACHUSETTS

AN ACT PROVIDING FOR NONPARTISAN PRELIMINARY ELECTIONS IN THE TOWN OF EAST LONGMEADOW.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

SECTION 1. Any person who is qualified to vote in the town of East Longmeadow may be a candidate for an elective town office therein and shall be entitled to have his name as such candidate printed on the official ballot to be used at a preliminary election; provided, that he files nomination papers provided by the Town Clerk containing no less than fifty signatures certified as voters of the town.

SECTION 2. The preliminary election shall be held on the twenty-eighth day preceding every regular or special town election.

SECTION 3. No primary or caucus for the nomination of town officers shall be held. No ballot used at any preliminary, regular or special election in said town shall have printed thereon any party or political designation or mark, and there shall not be appended to the name of any candidate any such political designation or mark.

SECTION 4. Nomination papers shall be filed with the Town Clerk not later than five o'clock in the afternoon of the twenty-first day preceding the preliminary election. Every nomination paper shall be submitted to the registrars of voters for certification of the names thereon on or before five o'clock in the afternoon of the seventh day preceding the day on which it shall be filed with the clerk.

SECTION 5. The election officers shall, immediately upon the closing of the polls at the preliminary election, count the ballots and ascertain the number of votes cast in the several voting places for each candidate, and forthwith make return thereof upon blanks to be furnished, as in regular elections, to the town clerk who shall convass said returns and shall forthwith determine the results thereof.

SECTION 6. The two persons receiving at a preliminary election the highest number of votes for nomination for an office shall be the sole candidates for that office whose names may be printed on the official ballot to be used at the regular or special election at which such office is to be filled, and no acceptance of a nomination at a preliminary election shall be necessary to its validity.

If two or more persons are to be elected to the same office at such regular or special election the several persons in number equal to twice the number so to be elected receiving at such preliminary election the highest number of votes for nomination for that office shall be the sole candidates for that office whose name may be printed on the official ballot.

If the preliminary election results in a tie vote among candidates for the nomination receiving the lowest number of votes, which, but for said tie vote, would entitle a person receiving the same to have his name printed upon the official ballot for the election, all candidates participating in said tie vote shall have their names printed upon the official ballot, although in consequence there be printed thereon names of candidates to a number exceeding twice the number to be elected.

SECTION 7. If at the expiration of the time for filing nomination papers of candidates to be voted for at any preliminary election not more than twice as many such papers have been filed with the Town Clerk for an office as there are persons to be elected to such office, the candidates whose nomination papers have thus been filed shall be deemed to have been nominated to said office, and their names shall be voted on for such office at the succeeding regular or special election, as the case may be, and the Town Clerk shall not print said names upon the ballot to be used at said preliminary election and no other nomination to said office shall be made. If in consequence it shall appear that no names are to be printed upon the official ballot to be used at any preliminary election in the town, no preliminary election shall be held.

SECTION 8. Except as otherwise provided in this act, the laws of the Commonwealth governing town elections, special elections of town officers and special elections in towns shall, so far as applicable, govern such elections in the Town of East Longmeadow.

SECTION 9. The state secretary shall cause to be submitted to the votes of the Town of East Longmeadow at the state election to be held in the year nineteen hundred and seventy in the form of the following question which shall be printed on the official ballot used for the election of state officers:-

"Shall an act passed by the General Court in the year nineteen hundred and seventy, entitled 'An Act providing for nonpartisan preliminary elections in the Town of East Longmeadow', be accepted?"

If a majority of the voters voting thereon vote in the affirmative in answer to said question, this act shall thereupon take full effect, but not otherwise.

In Senate, May 18, 1970
Passed to be enacted, Maurice A. Donahue, President

May 21, 1970

A TRUE RECORD OF
ATTEST:

Richard J. Clark

May 14, 1971

Mr. Richard A. Clark
Town Clerk
East Longmeadow, Massachusetts

Dear Mr. Clark:

I am happy to enclose the amendment to zoning by-laws adopted under Article 18 of the warrant at the annual town meeting held March 13, 1971, with the approval of the Attorney General endorsed thereon.

I regret that I must also enclose the amendment to general by-laws adopted under Article 11 of the warrant with the DISAPPROVAL of the Attorney General. This amendment is disapproved for the reason that it prohibits persons "standing with, or being near, two or more others upon any sidewalk or other public place in town so that the passage of other persons may be obstructed." If passage is obstructed such conduct may be forbidden, but the mere possibility that it may be obstructed because of someone "being near" is not sufficient ground for such a penal by-law. See Commonwealth v. Carpenter, 325 Mass. 519.

Very truly yours,

CARTER LEE
Assistant Attorney General

Town Clerk

Board of Registrars of Voters
Town Hall
East Longmeadow, Mass. 01028

February 15, 1972

To: WILLIAM M. FINNEGAN and
JOHN R. LUNDGREN, appearing as candidates for the office of SELECTMAN on the Town Election ballot of February 8, 1972.

WHEREAS a petition has been received by the Town Clerk calling for a RECOUNT in all precincts of all votes cast for the office of SELECTMAN on February 8, 1972, for WILLIAM M. FINNEGAN and JOHN R. LUNDGREN, candidates, you are hereby notified that the Board of Registrars of Voters will meet to inspect the voting machines and count all absentee ballots and to check the records of the returns of the count in the several precincts, at the following time and place:

THURSDAY EVENING, FEBRUARY 24, 1972

6:50 P.M. PLEASANT VIEW SCHOOL (Precinct 2) (Auditorium area) The Town Clerk, Board of Registrars of Voters and the Assistant Town Clerk, Mrs. Dorothy F. Weyner, will meet the candidates, their counsels and agents. In accordance with Chapter 54, Section 135 of the General Laws, as amended, the candidates will present in writing, to the Registrars, the names of their appointed counsels, if any, the name of their duly appointed representative, if any, and the names of their duly appointed agents.

The procedure for opening and inspecting each machine will be outlined.

7:00 P.M. The Town Clerk will present the storage box for Precinct 2, containing absentee ballots and the keys to four (4) voting machines:

102112 - 102113 - 102114 - 110993

Each machine will be opened, one at a time, inspected and the totals cast for SELECTMAN checked and the number voting on each machine. When all machines have been inspected, the absentee ballots will be recounted.

7:30 P.M. BIRCHLAND PARK SCHOOL (Precinct 1) (Cafeteria area) Continuing the same procedure, three voting machines will be opened and inspected: 99949 - 109058 - 120392.

8:00 P.M. MEADOW BROOK SCHOOL Precinct 5)(Stage of cafetorium) Two voting machines to be inspected: 121150 - 143384

8:30 P.M. MOUNTAINVIEW SCHOOL (Precinct 4) (Cafeteria area) Four voting machines to be inspected:

99946 - 99947 - 107445 - 107446

9:00 P.M. HIGH SCHOOL (Precinct 3) (Hallway outside gymnasium) Four voting machines to be inspected:
102111 - 99948 - 107447 - 107448

As the group completes their inspection at one precinct, the group will proceed to the next precinct. The schedule may vary somewhat, depending on the progress of the group.

One member of the Board of Registrars will read the totals on each machine. Another member of the Board of Registrars will hold the original Tally Sheet. Since these two Registrars are the only "officers counting or checking", each candidate is requested to bring no more than two agents to observe the work. This does not include the candidate, his representative or his duly appointed counsel, if any. The Registrars of Voters do not require additional clerical assistance.

The Town Clerk will provide suitable blanks, showing the original totals recorded, so that the members of the Recount Party may record the new numbers and totals as they are called.

The machine totals, once the back door of each machine is lowered, will be clearly visible to all members of the party. As each machine is approached, the group will:

1. Note the number of the machine and the number of voters who voted on it.

2. Lower the rear door of machine. Registrar will read totals and step back for others to observe the same totals.

3. Relock the machine.

FINNEGAN-LUNDGREN
RECOUNT (2-8-72)

The recount will be complete when all machines have been inspected and all absentee ballots recounted.

The Board of Registrars of Voters, thereafter, or as soon as conveniently possible, meet to determine the results of the recount in writing.

Respectfully,

WILLIAM T. McCARTHY, Chairman
EMILIO J. ZUCCO
SHIRLEY B. AITCHESON

TOWN OF EAST LONGMEADOW

BOARD OF REGISTRARS OF VOTERS
Town of East Longmeadow

February 25, 1972

To the Recount Petitioners and the Citizens of East Longmeadow:

The Board of Registrars of Voters issue the following statement, as required by law, at the completion of the recount of the votes cast for the office of Selectman at the Town Election held on February 8, 1972:

The petition for the recount being found in order with the proper number of signatures checked, the recount was held on Thursday evening, February 24, 1972.

The recount took place in the five (5) separate precincts where the seventeen (17) voting machines are located. At each precinct the voting machines were opened. The votes cast for Selectman were read by a member of the Registrars of Voters after which all members of the recount party personally inspected the counters on the back of the machine. The recount party checked the number of persons who voted on each machine, comparing such number with the number recorded on the original tally sheet. The absentee ballots were recounted in each precinct after all machines had been checked. At the completion of the recount, the vote was found to be the same, with no votes changed or challenged.

The Board of Registrars wish to thank the Town Clerk and all election officers concerned for carrying out and reporting an election that was in all respects accurate according to the law.
